and GFG

PROFILE

As a dedicated **MERN stack developer**, I excel in architecting robust solutions with meticulous code craftsmanship. Specializing in **ReactJS** and **Redux Toolkit** for front-end development and leveraging **Node.js and Express.js** for back-end prowess, I craft seamless user experiences supported by **MongoDB and Firebase databases**. My passion for **problem-solving**, honed through **competitive programming**, fuels my drive to tackle complex challenges. Eager to innovate and deliver impactful solutions, I'm poised to make a significant contribution to any project or team.

EMPLOYMENT HISTORY

Front-End Developer Intern, Cache-Ho

Feb 2023 — May 2023

- I played a crucial role in **enhancing the performance and user experience** of our web application by applying problem-solving techniques and optimizing key components through effective **utilization of data structures**.
- Leveraging my expertise in **ReactJS and Firebase**, I navigated through complex challenges to deliver impactful solutions, contributing to the seamless functionality and efficiency of the front-end architecture.

EDUCATION

Bachelor Of Technology , Vignan's Institute Of Information Technology

Computer Science and Engineering

Nov 2021 — 2025

PROJECTS

Nutricheck

- A comprehensive website poised to revolutionize how users access calorie and nutrition information for a vast array of foods. This ambitious project aims to provide an extensive database of nutritional data, empowering individuals to make informed dietary choices effortlessly.
- **Tech Stack : ReactJs, NodeJs, ExpressJs,Spoonacular API,MongoDB**
- **Project Link : https://github.com/Amrutha-01/NutriCheck**

Movie-Mate

- Movie-Mate is a comprehensive movie application meticulously crafted using the IMDb API. This expansive platform offers users the ability to seamlessly browse a vast array of movies, rate their favorites, curate personalized watchlists, and effortlessly manage their favorites collection. Movie-Mate provides an immersive experience for movie enthusiasts, elevating the way they discover, interact with, and enjoy films.
- **Tech Stack : ReactJs,Material-UI,Redux,NodeJs, ExpressJs, Firebase**
- **Project Link :https://github.com/Amrutha-01/MovieMate**
